**Subject:** Two topics to discuss with you

Carl- I am out today (taking my mom to Dr appointments) but I wanted to talk to you about medical monitoring costs (hoping that Steve G and Pam can talk to Ronnie about this and get some information that MD has not to date shared with Patti and Lisa) and West TX. On West I was hoping that we could do the 112r inspection together and that we (EN) could do the enforcement work once the inspection is done. I know that we have some interest in looking at 112r1 in addition to 112r7 aspects. Also Cynthia is interested in our process on the civil side. I know Steve T. was going to talk with Monica about this as well. Feel free to talk to Steve G. today if you want after Sr staff.

Thanks

john
